PERIODS OF GRACE FOR NEUTRAL SHIPS EXPIRED IN PROHIBITED ZONES IS ANNOUNCED BY BERLIN

Immunity Ceased, According to Amsterdam Dispatches, on the Night of February 12th, in the Atlantic and the English Channel.

FROM NOW ON ALL VESSELS ENTERING PROHIBITED ZONES DO SO AT THEIR PERIL

Amsterdam, via London, February 13.—(Associated Press Cable).—All periods of grace for neutral ships entering the prohibited zones have now expired, according to a Berlin official statement received here.

The statement says the immunity ceased in respect to the Atlantic and English Channel zones on the night of February 12; for the North Sea zone on February 6, and for the Mediterranean zone on February 10. It continues:

"From now on, therefore, in all prohibited zones, the warning which has been issued is in full force, and vessels which enter the prohibited areas do so with a full knowledge of the dangers threatening them and their crews."

It is expressly stated that all news spread from enemy sources about any impending of neutral ships without previous warning before the dates mentioned for the various prohibited zones is incorrect.

"The periods of grace mentioned were also in force for enemy passenger vessels, because it was possible that they were carrying neutral passengers who were perhaps ignorant of the new blockade regulations."

"WISHES TO BREAK THE BLOCKADE"

London, February 13.—(Associated Press Cable).—"President Wilson wishes to make an attempt to break the German blockade; the American government must be responsible for what happens," says the Berlin Vossische Zeitung in commenting on the report that two American merchant vessels were left for the blockade zone, according to the Exchange Telegraph's Copenhagen correspondent.

The correspondent reports that the announcement of the vessels' departure had caused a pronounced sensation in Berlin.

The American vessels referred to doubtless are the unarmed freight steamers Orleans and Rochester, which sailed from New York for Bordeaux on Saturday.

RUMORS STILL HAVE GERMANY FOR PEACE

London, February 13.—(Associated Press Cable).—With regard to the statement that Germany was seeking to convey to the United States her willingness to refrain from applying the declaration of January 13 to the shipping of that country in the hope of maintaining peace with the United States, the German newspapers, according to a dispatch from Copenhagen to the Exchange Telegraph Company, says that Switzerland, at the request of Germany, asked the United States Government whether it still accepted the American-Prussian agreement of 1793, according to which treaty German subjects in the United States and American citizens in Germany should be allowed to return to their respective countries.

It was merely this request to Washington, say the German newspapers, that gave rise to rumors of further peace negotiations.

AMMUNITION FOR CUBAN GOVERNMENT

Rebels Defeated in Clash With Government Troops.

Associated Press Dispatch. Havana, Cuba, February 13.—Official announcement was made here today that the United States government had offered 5,000 rifles and 5,000,000 cartridges to the Cuban government. The encounter has occurred in Matanzas Province between government troops and rebels. According to a report received here, the rebel troops were defeated.

ARRESTS MADE

By Associated Press Dispatch. Havana, Cuba, February 13.—The rebel troops were led by Mayor Gonzales of the town of Santo Domingo, Santa Clara Province. A police official was taken prisoner. It is reported from Manzanillo that the police and police court officials have been arrested.

ONE AMERICAN ABOARD SAXONIAN WAS WOUNDED

Queenstown, via London, February 13.—Of the three American firemen who were aboard the British steamship Saxonian when she was shelled, torpedoed and sunk by a German submarine last Wednesday, one of them, James Weygard, was wounded by a shell splinter and is now in the hospital here.

BREAK WITH GERMANY SENDS THRONGS TO THE COURTS TO SEEK CITIZENSHIP

NEW CITIZENS TAKE OATH OF ALLEGIANCE TO UNITED STATES

Throughout the United States, wherever there is a considerable proportion of German and Austrian born residents, there has been since the diplomatic break with Germany a rush on the part of aliens to acquire American citizenship. In the picture is a group of aliens swearing allegiance to the United States in the office

of a clerk of a federal court. An official told of talking with three applicants for naturalization who have been in the United States from seventeen to thirty years. They spoke English with a sufficiently German accent to indicate their nationality. Asked why they had not applied for citizenship before, they all gave the same

reason—carelessness and lack of opportunity that did not interfere with their business. "The situation with them is," explained the official, "that they have lived always among their own people and have talked German whenever they could. They have not become Americanized. They are insular in habit and speech."

INSURANCE ON HEALTH COMES ON

Governor Is Reported to Be Interested in Proposed Legislation.

By Associated Press Dispatch. Columbus, O., February 13.—Ohio is about to take up officially the study of health insurance, with a view to adopting it in this state.

A bill has been prepared, which is said to have the endorsement of Representatives of the organized labor, the Ohio Manufacturers Association, and the medical profession, providing for the appointment of a commission to study the subject for two years, making a report through the Governor to the next Legislature.

Governor Cox is interested in the measure, and the bill has been submitted to him.

It will provide for an appropriation of probably \$50,000 to cover the cost of the investigation.

The members of the commission are to serve without pay, but there will be considerable expense in connection with the employment of actuaries and other experts to study details.

The Garver bill, which provides that personal injury suits against railroad companies shall be brought in the county in which the action arose, or in which the plaintiff lives, was discussed before the House Judiciary

MOTOR BOAT SUNK BY SUB

(Associated Press Cable) London, February 13.—The Norwegian motor vessel West has been sunk, Lloyd's Shipping Agency announced today. The crew was landed. The Norwegian motor vessel West is not listed in available shipping records.

AUSTRIANS ARRANGING TO LEAVE

Members of the Families of Austrian Officials to Leave With Bernstorff.

By Associated Press Dispatch. Washington, February 13.—Some members of the families of officials attached to the Austro-Hungarian Embassy have arranged to leave the United States with Count von Bernstorff and his party.

In some quarters these arrangements were regarded as significant in view of the indefinite state of relations with Austria-Hungary.

LATE ORDERS PUZZLING TO OFFICIALDOM

President Abandons Usual Game of Golf for Study Hour.

By Associated Press Dispatch. Washington, February 13.—Berlin's formal announcement that the time has expired for all except exceptions in the campaign of ruthlessness turned attention here today to the questions which confront the American Government in whatever next step may be taken to meet the situation.

President Wilson abandoned his usual morning game of golf and remained at work in his study.

In the afternoon the Cabinet met and went over the situation. Among the questions now being carefully considered are:

The proposed conference of neutrals to outline the rights of nations not engaged in the war. This has not taken definite form and its exact status has not been divulged; nevertheless it is known the idea has not been abandoned; Loaning guns for the arming of American merchant ships. The preponderance of opinion among officials who have advised the President on this point favors having the Navy furnish the guns; Action on Austria's situation in the new campaign. The new Ambassador, Count Tarnowski still is waiting to present his credentials;

A reply to Mexico's suggestion for embargoes on food and ammunition to the belligerents.

WHITE STAR LINER AFRIC REPORTED TO HAVE BEEN SUNK

London, February 13.—(Associated Press Cable).—Lloyd's Shipping Agency this afternoon announced that the White Star Line steamship Afric, of 11,999 tons gross, had been sunk. Part of the crew of the liner was landed.

SAIL FROM SOUTH AFRICA DECEMBER 3

New York, February 13.—(Associated Press Dispatch).—The White Star Line has a report that the steamship Afric has been sunk. Officials of the company say they have no confirmation.

The Afric has a gross tonnage of 11,999 tons. She was last reported in the maritime register as leaving Capetown, Africa, on December 3, with her destination not given.

Any or all of these questions are expected to be decided in the near future. While it was reiterated today that the President would not be rushed into war, it was said that all officials realized that the much feared overt act might come at any time.

RAILROADS ACT FOR RELIEF OF TOLEDO PEOPLE

Threat of Mayor Milroy to Seize Coal "Persuades" Companies to Deliver.

By Associated Press Dispatch. Toledo, O., February 13.—Coal dealers this morning began delivery of 1,000 tons of soft coal in half ton lots to consumers.

To forestall possible raids on coal cars in the railroad yards, Mayor Milroy last night induced the Toledo & Ohio Central and Michigan Central railroads to deliver the ten carloads of coal each to local dealers to supply the domestic trade.

With the temperature still below zero and the natural gas supply almost nothing, some families last night burned furniture, while others closed their homes and sought refuge with neighbors who were fortunate enough to have coal.

GERMANY CALLS TRADES UNIONS TO THE COLORS

(Associated Press Cable) London, February 13.—A Reuters dispatch from Bern says that the German authorities have suddenly called to the colors all officials of trade unions and Socialist organizations.

These officials, who aggregate 10,000 in number, have previously been exempt from military service.

BRITISH ADVANCE SLACKENS

Still Stubbornly Fighting Their Way Toward Bapaume.

Important British Successes Are Reported on the Tigris.

By Associated Press Dispatch. While the military activities along the Franco-Belgian front, where the British are fighting their way toward Bapaume, have slackened somewhat, there has been an increase in the importance of the operations in several of the other war areas.

From the Tigris front in Asia there comes the official report of an important British success.

The British have established a line more than three miles long across the bend of the Tigris west of Kut-el-Amara, the operation resulting in the Turks being completely hemmed in it is declared.

In Macedonia, the Teutonic forces have taken the offensive in the Monastir region.

Today's German Army Headquarters statement announces the capture of an Entente hill position east of Paralovo, in the bend of the Cerna, and several camps in the rear of this point.

Nearly one hundred Italians were taken prisoners and five machine guns were captured.

INVESTIGATING FIRE IN MINNEAPOLIS HOTEL

By Associated Press Dispatch. Minneapolis, Minn., February 13.—Investigation of the cause of the Kenwood Hotel fire yesterday was begun today by Robert W. Hargadine, State Fire Marshal. The known dead totaled two when search for bodies of nearly a dozen persons believed to have lost their lives was resumed this morning.

DARRELL DEVORE IS IDENTIFIED AS HIGHWAYMAN

Five Employees of the Nisley Shoe Store in Springfield Claim Devore Is Man Who Walked Off With \$300.

Darrell Devore, of this city, young man who has been in trouble time after time for robbery or other crime, has been identified by five members of employees of the Nisley Shoe Store in Springfield as the highwayman, who, on the night of January 13th, entered the place and at the point of a gun robbed the cashier of nearly \$300 and then made his escape.

This announcement was made by the Springfield police after the young man had been turned over to them by D. T. & I. Detective "Nick" Fisher, who arrested Devore in this city Sunday evening just after he had been dismissed on a charge of bootlegging.

Announcement was made that a web had been woven about Devore some two weeks ago, but he was known under another name, and his whereabouts could not be established. A reward of \$100 had been offered for the arrest of the hold-up man, and if Devore proves to be the right man, this reward will probably be divided between Detective Fisher and local officials, whom, it is claimed, had suspected Devore of being connected with the Springfield deal as well as several other deals of an equally bold nature.

The crime of which Devore is charged was one of the boldest in the history of Springfield criminology. Lone handed the hold-up man walked into the store and back to the cashier's desk. A half dozen employees were in the store as well as several customers, and when the highwayman was near the cashier he suddenly pulled a gun and demanded the money. This was turned over to the hold-up man and, keeping those in the store covered with the gun, he beat a hasty retreat and escaped, but not before all employees had obtained a good look at him.

CHARGES CRUELTY IN DIVORCE SUIT

That the defendant was addicted to the drink habit, cursed and abused her and struck her is the charge made

by Cora E. Brown in an action for divorce from Wm. H. Brown, filed in common pleas court Tuesday morning. The couple, according to the petition, were married at Hillsboro, Feb. 19, 1898, and plaintiff left defendant Feb. 10, 1917. Plaintiff asks that defendant be restrained from disposing of or encumbering certain property in this city; that she be given custody of their two children and awarded alimony. Gregg, Patton and Gregg represent the plaintiff.

This cartoon was headed "The Crisis," and depicts the German War Lord, the Kaiser seated in a chair with agony and uncertainty written upon his countenance, while "Dr." President Wilson is offering the Kaiser medicine from a bottle labeled "Reason," saying: "Will you take this, or must we operate?" A kit of tools marked "War" is at hand for use should the "patient" decline to accept the medicine.

Public "Utilities."

Sunday morning Washington citizens had an experience considerably out of the ordinary for these days—especially for residents of an Ohio city.

For several hours both the city water and the electric currents, light and power, were cut off entirely. No great inconvenience was suffered and barring minor annoyances caused, principally, by an interruption of the routine of habit, no one was any worse off for the experience.

One of our prominent citizens, on Sunday morning, forgetting for the moment the warnings published by both the water company and the electric company, endeavored to switch on his light—no light came and then he remembered about the current being turned off. With a sigh of resignation he turned the water faucet. Again there was no response and he remembered about the water being turned off too.

He was a little peeved but still resigned to his fate. The climax came, however, when he sought to use his telephone and it wouldn't work.

There he was isolated, cut off, imprisoned and denied all the necessities of life—he thought. Well fortunately he was a good natured man and soon realized that he wasn't doomed to perish miserably.

And yet, it is only a few years ago, comparatively speaking, since Washington had neither water works nor electric lights and only an antiquated telephone system and we got along fairly well too. Our fathers transacted the daily business, prospered and were happy. They didn't miss what they had never known.

Now the luxuries have become a necessity and we just can't live or transact business without our public utilities.

When we fail to have instantly luxuries which our fathers never knew we feel that a necessary of life is being denied us.

It isn't. It is simply an interference with habit and not at all a serious matter.

Remember Lincoln

Yesterday, Monday, was the birthday of Abraham Lincoln. Americans in every walk of life honored the memory of the great American.

Very few Americans failed to realize the sanctity of the occasion and by thought and contemplative reflection, if not by participation in active demonstration, observed fittingly, the day.

Lincoln was one of the greatest men in American history. Simple, honest, plain and of the people he guided safely the nation through one of the greatest crises of history.

His was an herculean and like a Hercules he met it fairly and squarely with the simple honesty which gave him the force to deal with each problem and solve it.

Lincoln grows with each passing year. During the trying periods which confronted him his acts were severely and cruelly criticised. He had the courage to stand firm for the right and the very honesty and sincerity of his purpose furnished the all sufficient armor against unjust criticism, much of it the outgrowth of selfish interests.

The American people should remember Lincoln—honor his memory and ever be mindful of his service to the nation and the unnecessary suffering unjust criticism caused him.

Appreciating Lincoln now we should have more patience and deal more fairly with those who now have the burdens of a trying crisis to face.

Support and honest appreciation of sincere endeavors instead of carping and unreasonable complaint are the greatest reward a public servant can receive.

Remember Lincoln.

A Proof

One of the most positive and striking proofs of the loyalty of the extreme pro-German element, now that the nation faces a crisis, is to be found in the change of tone in that radical German-American publication, The Fatherland.

The publication was so violently pro-German, prior to the breaking off of diplomatic relations between this nation and Germany, that it was regarded as really hostile to the United States.

The publication has, realizing the unpopularity which attached to its radical course in the past, changed its name.

The Fatherland is no more. The New World has succeeded it and prints, on its title page, the slogan "My Country, Right or Wrong; if right, to be kept right; if wrong, to be set right."

Its editors announce that it is no longer the mouthpiece of the German-Americans, but of all who believe in the Washington Government and in the declaration of independence.

The position of the former pro-German publication and the resolution of the National German Alliance should remove all the doubts of the few who entertained fears as to the loyalty of those Americans who were formerly German subjects or whose parents were German born. When President Wilson rescinded Count von Bernstorff his passports the "German-American" ceased to exist.

Poetry For Today

A WOMAN WHO UNDERSTANDS
Somewhere she waits to make you win.
Your soul in her firm white hands—
Somewhere the Gods have made for you
The woman who understands.

As the tide went out she found him
Lashed to a spar in despair—
The wreck of his ship around him,
The wreck of his dreams in the air—
Found him and loved him and gathered
The soul of him to her heart;
The soul that had sailed an uncharted sea—
The soul that had thought to win and be free—
The soul of which she was part;
And there in the dusk she cried to the man:
"Win your battle—you can—you can."

Helping and loving and guiding—
Urging when that was best—
Holding her fears in hiding
Deep in her quiet breast—
This is the woman who kept him
True to his standards lost,
When tossed in the storm and stress
and strife.
He thought himself through with the game of life
And ready to pay the cost.
Watching and guarding and whispering still,
"Win—you can—I know you will."

This is the story of ages—
This is the woman's way—
Wiser than seers or sages,
Lifting us day by day—
Facing all things with courage,
Nothing can daunt or dim:
Treading life's path wherever it leads—
Lined with flowers or choked with weeds,
But ever with him—with him.
Guardian, comrade and golden spur,
The men who win are helped by her.
Somewhere she waits, strong in belief
Your soul in her strong white hands;
Thank well the Gods when she comes to you—
The woman who understands.

The ladies garment workers are striking for an increase in wages and better shop conditions.

TOLEDO HAS REAL SUB. DESTROYER

By Associated Press Dispatch.
Toledo, O., February 12.—Toledo has a real "sub" destroyer. He is Seaman Webster, a member of the Toledo Naval Militia. Webster is said to hold the world's record for shooting the new semi-automatic guns, the small pieces which recently have been mounted on battle ships to destroy the undersea craft. Webster's record was made during target practice on June 25, 1916, in Lake Erie from the Essex. With the war vessel steaming at 10 knots an hour and the range varying from 1,000 to 1,600 yards Webster made four hits out of four shots at a target. A heavy sea made the test more difficult.

MRS. CHAS. GLAZE HAS CLOSE CALL IN BURNING HOME

Section of Roof Falls Upon Brave Woman Who Was Aiding in Removing Furnishings During Fire — New Home Will Be Erected at Once.

Mr. Chas. Glaze, whose attractive home was destroyed by fire originating from sparks dropping on the roof, Monday afternoon, will begin at once tearing away the debris in order to rebuild without delay, and expects to have his new home ready by early spring.

It was only by the hardest of work on the part of Mr. Glaze and his loyal neighbors that several other buildings were saved from the flames, it being necessary to cut away some of the buildings attached to the house by connecting roofs.

While most of the household effects were removed from the first floor nearly all of the furnishings on the second floor were consumed with the house.

While in the act of removing some of the goods upstairs, Mrs. Glaze had a very narrow escape from death when a section of roof fell in, burning her painfully, but not seriously. The nervous shock was so great that it was necessary to call a physician. She had fully recovered Tuesday morning.

Mr. Glaze had both house and household goods insured, but his loss will be many hundreds of dollars in excess of the insurance.

Until the home is rebuilt, Mr. Glaze and family will make their home with Mr. Glaze's brother, Mr. Jesse Glaze. Tuesday morning officers of the Farmers Mutual Union Fire Insurance Company of Madison Mills, wrote Mr. Glaze a check for \$1800 representing the full amount of his insurance, \$1,200 for the house and \$600 for household effects.

Pay Up His Bills At This Time

Your charge account is a courtesy extended by the business or professional man as an accommodation not to himself but to you.

The payment of your account after it becomes due is more than an obligation—it becomes a duty, and should be so considered.

Pay-Up Week presents the opportunity to you to show your appreciation of the courtesy extended you, by gladly and willingly paying up those accounts which have been neglected, and getting square with the world,

In doing this you will enable the man you pay to pay the man he owes. You'll feel better by joining in this movement—helping to make this a wonderful week in Washington.

WITH THE OHIO LEGISLATURE

By Associated Press Dispatch.
Columbus, O., February 13. — The Ohio Civil Service Association and the Civic League of Cleveland are prepared to fight the proposed repeal of the civil service provision of the Ohio constitution, it was announced today.

Resolutions by Representative Hoy of Jackson county before the House of Representatives provide for the submission of two questions on civil service—one to abolish civil service entirely and the other to make it apply to all appointive officers except police and firemen and civil war veterans.

The Republican minority in the House will make an effort to have a provision in the new agricultural bill which will require approval of the agricultural board on all acts of the Secretary of Agriculture, the purpose being to prevent the secretary from making appointments without the approval of the board. The bill as drafted gave the advisory board veto power over the acts of the secretary, but Republicans in the House were not satisfied with this provision and want the board to have power of approval of acts of the secretary before they are made.

Representative Bragg of Erie county will introduce a bill in the House to create a Municipal Court for the city of Sandusky. The bill which has the backing of the bar association of Sandusky provides for the election of a judge next November at a salary of \$1500 a year. He shall take office January 1, 1918. County commissioners of Erie county will pay \$450 a year toward the expense of the court. The court will take the place of the present mayor's court and eliminate the two justices of the peace of Sandusky. No provision is made for election of a clerk. Instead the city commission of Sandusky will provide the clerk and may designate clerks from some other city department to do the work. City policemen will act as bailiffs of the court.

Military authorities here have expressed the opinion that the bill introduced by Senator Davis of Mahoning county proposing to eliminate the national guard from strike duty is unconstitutional and does not conform to the national defense act. It is said the use of the national guard cannot be limited by state regulation.

Advocates and opponents of the Terrell Christian Science bill to exempt Christian Science practitioners from the control of the state medical board will descend upon members of the House this week. The bill passed the Senate without much opposition. There are seven physicians in the House who are expected to lead the fight to defeat the bill.

Representative Reed of Washington county has introduced a resolution in

the house proposing a constitutional amendment which if adopted would revive the old poll tax, requiring electors to give two days work annually on the public highways or pay the sum of \$5.

Representative Potter of Delaware county has introduced a bill in the House requiring inspection of horses imported into the state in order to prevent the spread of glanders.

S. S. CONVENTION

A few nights ago while in Minneapolis, Minn., Mr. Parrish stopped at the Kenwood Hotel, which was destroyed by fire Monday night of this week, with 10 or more persons perishing in the flames, and many guests injured.

Pay-Up Week Will Inaugurate a Better Feeling In Community

THERE isn't a doubt that this town will receive a big impetus if Pay-Up Week is entered into in the right spirit. Everybody will be a ready gainer. You'll find that immediately you pay your bill others will pay theirs. If you have money owing to you it will be forthcoming. The paying of bills will not be the hardship some people think it is.

MANY OF THE MOST SUCCESSFUL MERCHANTS IN THIS COUNTRY OWE A GREAT MEASURE OF THEIR SUCCESS TO THE FACT THAT THEY PAID THEIR BILLS PROMPTLY. THEY ALWAYS KNEW WHERE THEY STOOD IN BUSINESS. IF THEY OWED FOR A BILL OF GOODS THEY INSISTED THAT THE BILL BE FORTHCOMING. THEY ALWAYS TOOK ADVANTAGE OF THE CASH DISCOUNT. OF COURSE MANY MEN IN BUSINESS ARE NOT IN A POSITION TO PAY READILY. THEY NEED TIME TO SWING THEIR OBLIGATIONS. READY CASH IS NOT ALWAYS HAD FOR THE ASKING.

But if a certain period like Pay-Up Week is agreed on for liquidation there will be plenty of ready cash. You'll not be the only one to pay up. Others will do likewise. And Pay-Up Week will inaugurate a better feeling all around. It will promote the prosperity of the individual. It will promote the prosperity of the community.

NOW IS THE TIME TO TALK UP PAY-UP WEEK. DO YOUR PART IN THIS LAUDABLE CAMPAIGN. TELL YOUR NEIGHBOR THAT YOU INTEND TO PAY UP EVERY DOLLAR DURING PAY-UP WEEK. THAT WILL SET HIM THINKING. IF HE OWES MONEY HE'LL PAY UP TOO. PAY-UP WEEK HAS PROVED A SPLENDID PROPOSITION IN OTHER PLACES. IT WILL PROVE ONE HERE.

IT'S UP TO YOU.
Will you help make PAY-UP WEEK a success?
WE KNOW YOU WILL.

NEXT WEEK IS PAY UP WEEK

75 HIT TRAIL MONDAY NIGHT; FINAL TONIGHT

Evangelist, Urged By Committee to Remain Entire Week, Agrees to Another Service, the Final, Tonight.

Although his sermon Monday night was meant to be his farewell to the converts and church members, the results at the meeting were so great and the field of work correspondingly great that the Campaign Committee appealed to Dr. Bromley to continue the services the remainder of the week but worn by his six week's strenuous work in this city, the evangelist promised one more meeting and that will be held tonight at 7:30 and will be for the public in general.

The Monday night address of Dr. Bromley was especially directed toward the new converts and all Christians, and he urged them to keep the faith and remain true to the teachings of the Gospel.

At the close of his sermon he extended the invitation for trail hitters, and before the meeting came to a close about the midnight hour, more than 75 persons had hit the trail, and one of the most remarkable meetings of the series was the result.

The personal workers again were active in all parts of the big audience, and their efforts were rewarded by scores of penitent persons hitting the sawdust trail which had been well marked by more than 1300 others during the series of meetings.
It is expected that the services tonight will attract another great audience, and that the results of tonight's services will bring the total number of converts in excess of 1400.

SALE OF BIBLES SHOWS BIG GAIN

Inquiry at the stores in the city where Bibles and Testaments are sold elicits the information that the sales of these volumes has greatly increased during the past few weeks, and that scores of inquiries have been made and dozens of volumes sold.

It has been necessary to order additional stocks of Bibles and Testaments

to meet the demand, and it is expected that this heavy demand will continue for some little time until scores of converts of the Bromley meetings have been supplied.

METHODISTS

On Tuesday, February 13th, all Methodist preference wearers of the little white button with the crimson cross are asked to meet the pastor for a few moments at Grace church (Market street entrance) at (as suits each best) 1:30 or 2:30 p. m. or 3:30 or 4:30 p. m. or 7 p. m. or 8 p. m.

OF OUR PLANT**BUT MORE SO OF WHAT
THAT PLANT TURNS OUT.

You, too, Mr. and Mrs. Laundry Customer, are more interested in what results our plant gets than the way it gets them—Ask your neighbor. "We Know How."

LARRIMER LAUNDRY.**IMPORTANT
FARM NOTES**

Probably the first plantings of shrubbery should be close to the foundation of the house. The angle at each side of the steps and the space in front of the veranda seem to demand the first work. In arranging this planting, the shrubs should not be in a straight line, but in a more or less irregular zigzag direction, with some extending out beyond the others, especially at exterior corners. It is preferable, in most cases, not to plant solidly, but to allow the foundation of the house to show at varying intervals.

Angles formed by the intersections of walks or of a walk and a drive are usually good places to plant shrubs. Sharp corners should be softened if possible. A turn in a drive can be made to look natural if a tree or clump of shrubbery is placed in front of the curve, making it appear that the change in direction was necessary.

Fences, outhouses and unsightly spots can be screened and improved in appearance by a judicious planting of shrubbery.—R. B. Cruickshank, Ohio State University.

Prune Grapes in February. Pruning of grapes can well be done

in February, although it is better to do it later than not at all.

The grape bears fruit only on wood of the current year's growth. This means that a large amount of wood is added to the vine each year which is practically of no use.

By cutting out this old wood, the vine is less crowded, will bear better bunches of grapes, becomes more vigorous and longer lived.

If there is a considerable amount of wood to be removed it may be advisable to cut away only a part of it the first year, leaving the remainder for next season. All of last year's canes should be cut back to from one to three buds, depending on how thick the wood is.

Lessons on Gardening.

Garden enthusiasts of every sort will have an opportunity this spring to receive free instruction by correspondence from the Ohio State University College of Agriculture. A course in vegetable gardening is open without cost to any resident of the state. The lessons take up a discussion of soils adapted to gardening as well as their needs and preparation, garden plants, tools and equipment, water supply and irrigation as well as general cultural directions for each of the common vegetables grown in Ohio. Applications for enrollment may be made to J. E. McClintock, Supervisor of Correspondence Courses Ohio State University, Columbus.

Eggs for Hatching.

It is seldom necessary and never desirable to use eggs for hatching from all of the fowls on the farm. A sufficient number of the choicest fowls should be selected for use as breeders. The breeding fowls may be separated from the main flock 2 or 3 weeks before it is necessary to begin to save eggs for hatching. They should be housed in a temporary pen and yarded at one end of the regular poultry house or in portable colony houses and returned to the main flock as soon as the breeding season is over.

No matter how carefully the breeding stock has been selected, it will usually be found advisable to make a careful selection of the eggs to be incubated, basing the selection on their size, shape, color, condition of shell and uniformity. The first three of these characters are heredity and a careful selection of eggs of good size, shape and color continued through several generations will result in greatly improving the average quality of the eggs produced by the flock.

**ROADS MEETING
AT ZANESVILLE**

A meeting will be held in Zanesville, Ohio, February 20, for the purpose of organizing a highway association through the counties between Cincinnati and Wheeling, W. Va. The proposed line passes through Wilmington, Washington C. H., Circleville, Lancaster, Somerset, Zanesville, Cambridge, St. Clairsville and Bridgeport to Wheeling.

Prominent men in all the towns and cities along the proposed road and many farmers also have expressed keen interest in this movement and will attend the Zanesville meeting. Some of the towns have said they will be there very strongly represented.

**MORE MATERIAL
FOR NEW BUILDING**

Several car loads of equipment and material for work on the new Dahl-Campbell building are on the siding or have been unloaded ready for use. A temporary stairway leading to the Elks' lodge rooms has been erected in front of the Hunt building, and the present stairway will be torn out and a new one, together with a passenger elevator, will take its place in the new building.

All arrangements are being completed to take up the work of constructing the walls within the next week or two, providing weather permits.
